

## Canada's fastest internet service\* is coming.

Our team will be working to bring Canada's fastest internet service\* to your neighbourhood.

Over the next few weeks, we appreciate your patience and cooperation as we work to build out our new 100% pure fibre network. Your new telMAX MAXfibre network will offer more reliable service and faster internet speed with download and upload speeds up to 10Gb/s in the near future!

During construction, you will be able to sign up for our services and be amongst the first to experience lightning-fast speeds.

Identical  
Download &  
Upload Speeds.

Unlimited  
data  
access.

Local  
community-based  
company.

Rest assured, our crew members and contractors will work within the strictest health and safety guidelines and Newmarket's municipal standards to minimize disruption as they install equipment and connect your neighbourhood to our network.

At the end of the construction, telMAX will restore the neighbourhood to the condition from when our construction began.

## We look forward to offering you Canada's fastest internet service\* in the near future!
